## CLEAR Journey

- Current role both clinical and operational, wanting to expand knowledge and leadership skills
- Interested in the 'bigger picture' regarding service planning and workforce re-design
- Allows clinicians to be part of discussions within the Trust that allow for further development and consideration
- CLEAR programme and methodology, blackboard learning is easy to follow

## Next Steps

- Nearing the end of the project, due to present to Trust Board
- Exploring within my own role how to implement new skills
- Thinking about further training, potential leadership courses within the trust and externally
- Becoming involved in further work within Trust regarding transition
